**English**

|                 |                               |          |
|-----------------|-------------------------------|----------|
| <b>ENGL 060</b> | <b>English Language Study</b> | <b>5</b> |
|-----------------|-------------------------------|----------|

**Recommended Preparation:** CIS 100 or CIS 101 or concurrent enrollment.  
**Prerequisite:** Placement in ENGL 060 or instructor permission.  
ENGL 060 is a basic composition course designed to develop those writing/sentence skills necessary in both everyday writing and subsequent college writing through classroom exercises, group problem-solving, and short writing assignments. Skills gained in this course should help students improve their ability to perform such tasks as writing short-answer tests, brief responses to readings, and brief papers. Designed as preparation for ENGL 095. 5 lecture hours.

**Mathematics**

|                 |                                   |          |
|-----------------|-----------------------------------|----------|
| <b>MATH 060</b> | <b>Fundamentals of Arithmetic</b> | <b>5</b> |
|-----------------|-----------------------------------|----------|

**Prerequisite:** Appropriate placement test score or instructor permission.  
This course is designed for students who need to strengthen their skills in arithmetic. Mathematical reasoning will be used to define and solve problems. The specific course content includes topics on fractions, decimals, ratios, proportions, percents, English and metric measurements, area, volume and perimeter of geometric objects, with an introduction to integer arithmetic. Effective communication of these ideas and application to everyday situations are part of the curriculum. Problem solving strategies will be stressed. 5 lecture hours.
